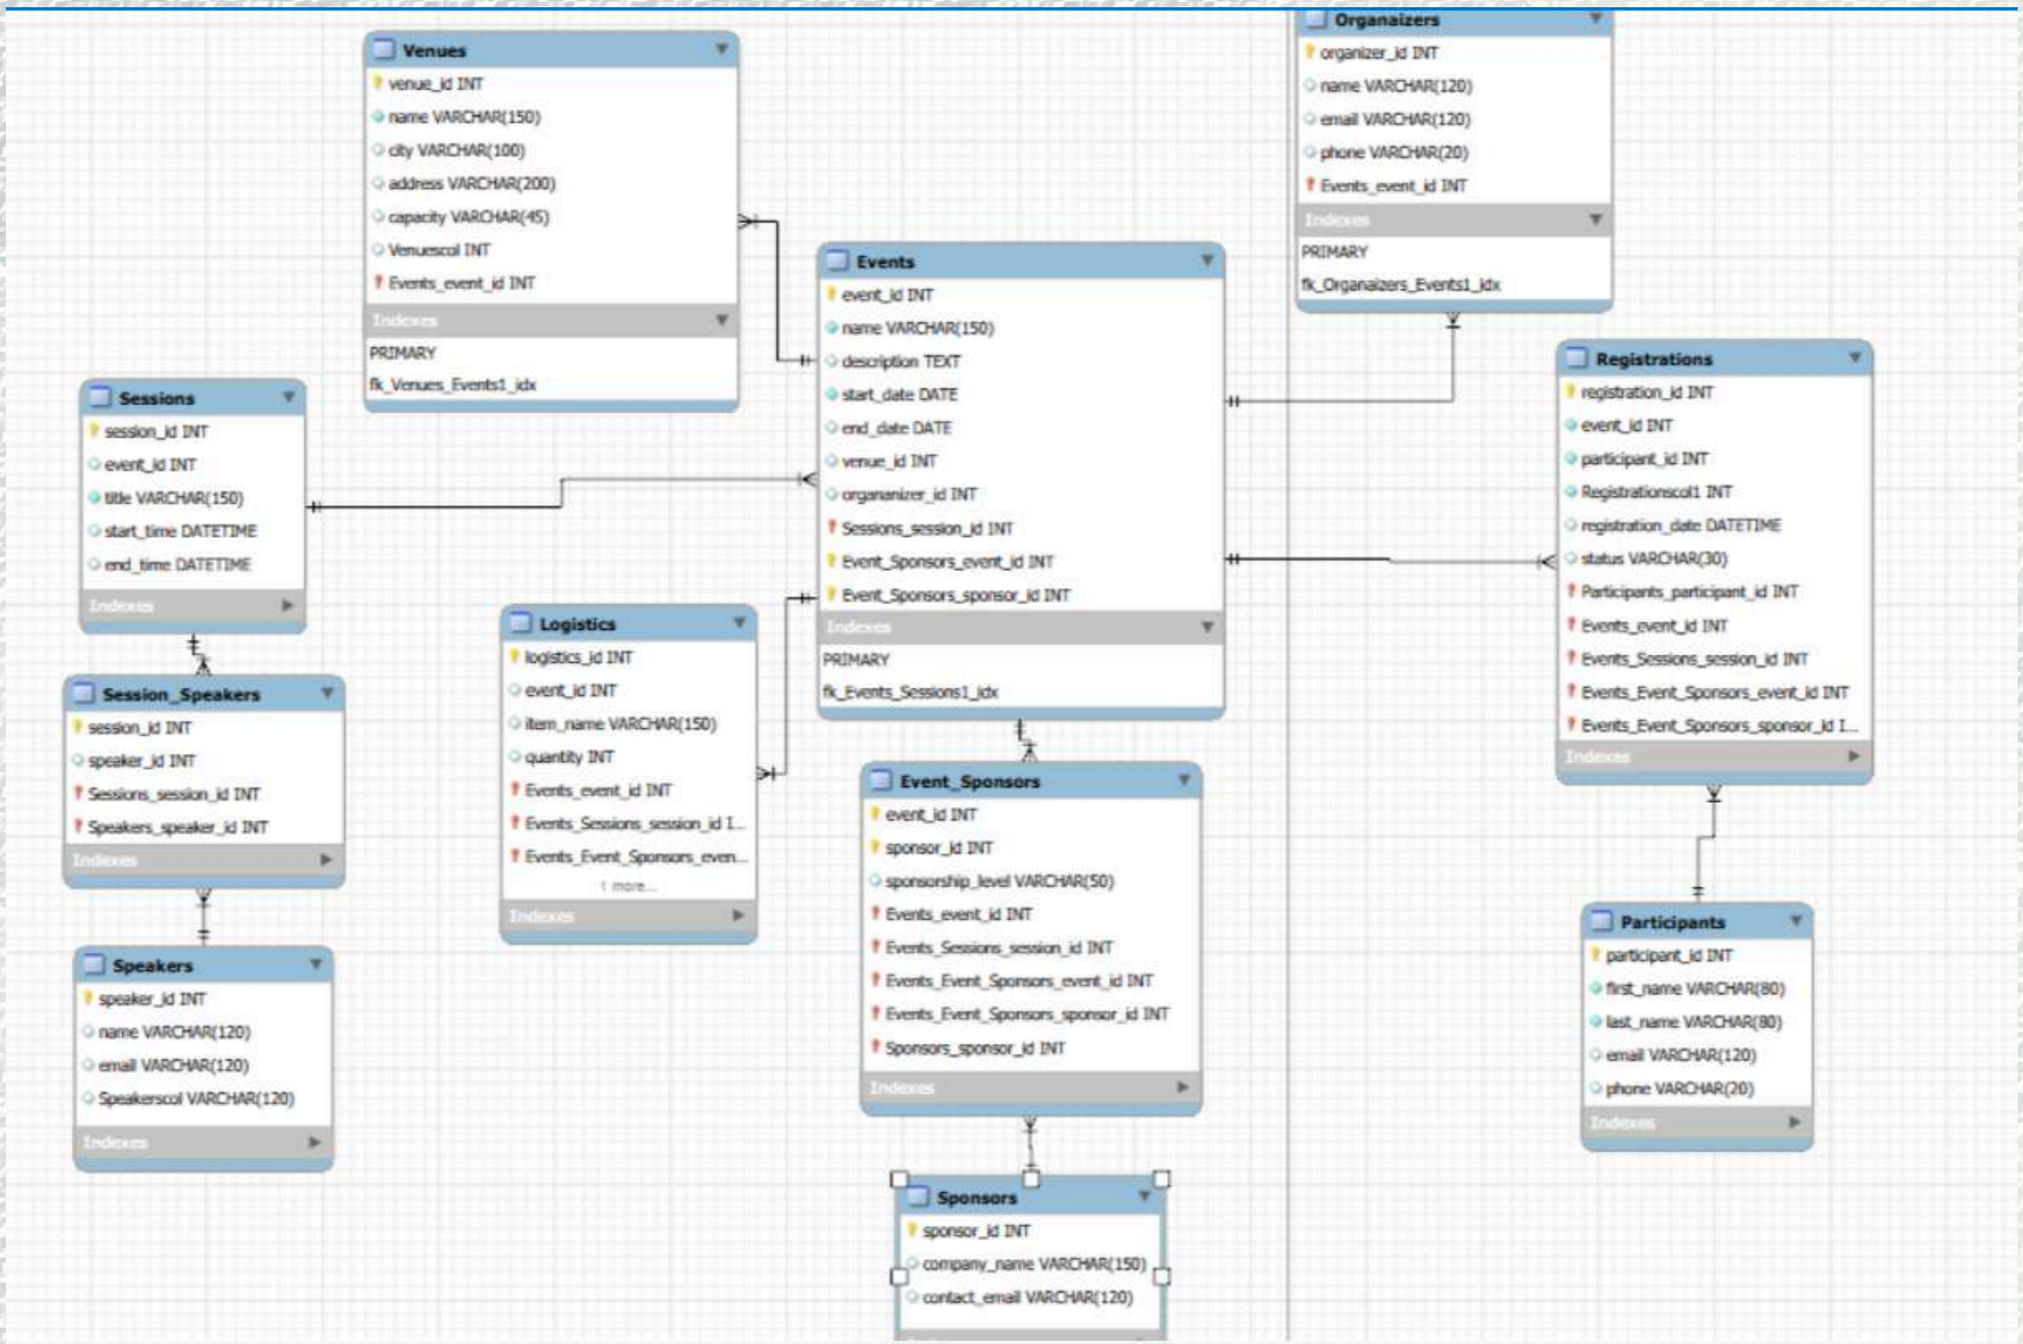
1.1 Logical Scheme



1.2 OBJECTS

This section describes the database tables used in the Event Management System. Each table includes information about its fields, data types, constraints, and relationships with other tables.

TABLE: EVENTS

Field name	Field Description	Data Type / Constraints
event_id	Unique identifier of the event	INT, PK, AI, NOT NULL
name	Name of the event	VARCHAR(150), NOT NULL
description	Short description of the event	TEXT
start_date	Event start date	DATE, NOT NULL
end_date	Event end date	DATE
venue_id	Venue where the event takes place	INT, FK
organizer_id	Organizer responsible for the event	INT, FK

TABLE: VENUES

Field name	Field Description	Data Type / Constraints
venue_id	Unique identifier of the venue	INT, PK, AI, NOT NULL
name	Name of the venue	VARCHAR(150), NOT NULL
city	City of the venue	VARCHAR(100)
address	Address of the venue	VARCHAR(200)
capacity	Maximum number of people	INT

TABLE: ORGANIZERS

Field name	Field Description	Data Type / Constraints
organizer_id	Unique identifier of the organizer	INT, PK, AI, NOT NULL
name	Name of the organizer	VARCHAR(120), NOT NULL
email	Organizer email address	VARCHAR(120), UNIQUE
phone	Organizer phone number	VARCHAR(20)

TABLE: PARTICIPANTS

Field name	Field Description	Data Type / Constraints
participant_id	Unique identifier of the participant	INT, PK, AI, NOT NULL
first_name	Participant first name	VARCHAR(80), NOT NULL
last_name	Participant last name	VARCHAR(80), NOT NULL
email	Participant email	VARCHAR(120), UNIQUE
phone	Participant phone number	VARCHAR(20)

TABLE: REGISTRATIONS

Field name	Field Description	Data Type / Constraints
participant_id	Participant registered for the event	INT, PK, FK, NOT NULL
event_id	Event for which registration is made	INT, PK, FK, NOT NULL
registration_date	Date and time of registration	DATETIME
status	Registration status	VARCHAR(30)

TABLE: SESSIONS

Field name	Field Description	Data Type / Constraints
session_id	Unique identifier of the session	INT, PK, AI, NOT NULL
event_id	Event to which the session belongs	INT, FK
title	Session title	VARCHAR(150), NOT NULL
start_time	Session start time	DATETIME
end_time	Session end time	DATETIME

TABLE: SPEAKERS

Field name	Field Description	Data Type / Constraints
speaker_id	Unique identifier of the speaker	INT, PK, AI, NOT NULL
name	Full name of the speaker	VARCHAR(120), NOT NULL
email	Speaker email address	VARCHAR(120)

Table: Session_Speakers

Field name	Field Description	Data Type / Constraints
session_id	Session identifier	INT, PK, FK, NOT NULL
speaker_id	Speaker identifier	INT, PK, FK, NOT NULL

Table: Sponsors

Field name	Field Description	Data Type / Constraints
sponsor_id	Unique identifier of the sponsor	INT, PK, AI, NOT NULL
company_name	Sponsor company name	VARCHAR(150), NOT NULL
contact_email	Sponsor contact email	VARCHAR(120)

Table: Event_Sponsors

Field name	Field Description	Data Type / Constraints
event_id	Event identifier	INT, PK, FK, NOT NULL
sponsor_id	Sponsor identifier	INT, PK, FK, NOT NULL
sponsorship_level	Type or level of sponsorship	VARCHAR(50)

Table: Logistics

Field name	Field Description	Data Type / Constraints
logistics_id	Unique identifier of the logistics iten	INT, PK, AI, NOT NULL
event_id	Event related to logistics	INT, FK
item_name	Name of the equipment or item	VARCHAR(150), NOT NULL
quantity	Number of required items	INT

Comments on table relationships

venues -> events : one venue can host many events

organizers -> events : one organizer can manage multiple events

events -> sessions : one event can contain multiple sessions

events -> logistics : one event can have multiple logistics items

events -> registrations : one event can have many participant registrations

participants -> registrations : one participant can register for multiple events

sessions -> session_speakers : one session can have multiple speakers

speakers -> session_speakers : one speaker can participate in multiple sessions

events -> event_sponsors : one event can have multiple sponsors

sponsors -> event_sponsors : one sponsor can support multiple events

Example with data

participant_id	event_id	registration_date	Data Type / Constraints
1	1	2026-02-03	Confirmed
